SUMMARY

AI Product Manager with **3+ years** owning 0→1 launches and growth-stage products across **B2B Saas and B2B2C healthcare solutions**. Drove measurable impact – **20%** booking conversion lift, **50%** ops effort reduction, **30%** faster claim resolution – by combining **AI-driven automation, SQL analytics, and structured product thinking**. Strong in **Agile delivery** and **rapid prototyping**. Available to join immediately.

EXPERIENCE

Product Associate L2

Jul 2024 – Present

Truworth Wellness

Bengaluru

- Identified manual bottlenecks across the claim adjudication pipeline (prescription upload → Ops review); designed **AI-driven prescription data extraction and automated reconciliation logic** that cut manual effort by **50%**.
- Built **Partner Platform**, integrating partners like ICICI Lombard, Care Health Insurance, and Medi Assist; standardized onboarding for **30+ partners** and supported 2× revenue growth.
- Spearheaded the redesign of Sponsored Health Check campaign and configuration workflows, processing **5,000+ bookings** monthly, achieving a **25% reduction in TAT**.
- Owned end-to-end product lifecycle for a 0→1 cashless OPD journey, achieving **15% user adoption** by resolving eligibility and claim submission roadblocks.
- Drove a **25% increase** in fulfillment rates by automating post-consultation WhatsApp customer journeys through a structured message-response workflow.
- Created SQL dashboards in **Superset** and **Metabase** for 20+ clients; shortened reporting time by **40%**.

Product Associate L1

Jun 2023 – Jun 2024

Truworth Wellness

Bengaluru

- Investigated **booking funnel drop-offs** using **MoEngage analytics**; implemented **UI/UX** enhancements and workflow optimizations that lifted booking completion rate by **20%**.
- Strengthened data reliability across dashboards by implementing **SQL-based validation** and reconciliation checks, eliminating metric inconsistencies by **30%**.
- Launched engagement features (**Heart Rate Tracker, Check-in Challenges**); boosted feature adoption by **20%** within 60 days of release.
- Led **Scrum** across **50+ sprints**, executing **200+ user stories** with engineering, design, and business; improved sprint velocity by 20% through effective sprint rituals and blocker management.

PROJECTS

DDP – Doctor Discovery Platform | Vercel (Prototype)

- Reframed doctor discovery from sourcing generic internet listings to identifying doctors preferred by customers through prescription data; improved **discovery efficiency by 20%**.
- Established the end-to-end **AI-assisted** sourcing workflow that extracted doctor profiles from prescription data, enabling Ops review, verification, and onboarding into the network.
- Prepared an interactive **prototype on Vercel** to visualize user flows and system interactions; reduced stakeholder iteration cycles by 30% and accelerated alignment.

SkillSprint – Gamified PM Learning Platform | React, Vercel, GitHub

- Identified engagement gaps in PM learning platforms and defined a gamified learning experience with scenario-based **challenges, XP, streaks, and leaderboards**; shipped end-to-end from PRD to live product.
- Validated by **200+ users with a 70%** scenario completion rate, turning a competitive-audit insight into a working, user-tested product; automated deployment through GitHub and Vercel.

SKILLS

Product Management: Roadmap Planning, MVP Scoping, PRD Writing, GTM Strategy, Feature Prioritization, Agile/Scrum, User Stories, Wireframing, Customer Journey Mapping, User Segmentation, Retention Analysis, API Integration, Cross-functional Collaboration

Data & Analytics: SQL, Funnel Analysis, KPI Definition, Dashboarding, A/B Testing, Google Analytics, Conversion Optimization

Tools: Claude, Vercel, Lovable, MoEngage, Superset, Metabase, Figma, Whimsical, GitHub, Excel, Jira, Confluence

EDUCATION

B.Tech, Mechanical Engineering

Aug 2018 – Jun 2022

The LNM Institute of Information Technology

Jaipur
